Dear Zaquie Meredith,

As a rule, I prefer that those who want to open an institute using my name,
have another name besides that so that people can distinguish between the
various intitutes using my name. Thereore there should be a first name like
a first title of a book and then a subtitle wher my name may be mentioned.
What you describe is wonderful work.

Love

Bert Hellinger

Dear Bert Hellinger,

Thank you very much for taking the time to respond my e-mail (your response written below) I was very grateful and honored by it. I am planning to open up an Institute on Family Constellation in São Paulo, Brazil. And the best name I could think of, since you want a prior name to the Institute would be "From the Soul: Bert Hellinger Institute of São Paulo" (Da Alma-Instituto de Bert Hellinger de São Paulo). I also would be grateful if you have any suggestions as to the name.

Brazil is a big country and we have so many states and the ideal would be like United States where it is starting to have an Institute in each state.

Please I request your blessing to do this and up to the time I wrote you my first letter, in Mexico, I had not heard of anyone in Brazil who have thought of doing the same. Even the ones who have been teaching before. But the moment I expressed my desire it seems everyone is having the same idea.

I feel this is a claim of my soul and I humbly ask for your blessing. I also would like to know if you can come down to São Paulo to give a workshop and inaugurate the Institute whenever you can be available and once everything is ready.

Very faithfully yours,

Zaquie Meredith

 Assunto: Comments on my experience- with Hellingers work

Dear Bert Hellinger, 28 of April 2004

I would like to share with you a few experiences I had on Family Constellations. It is so important that I manifest how your work is so brilliant and helpful to people. I realize that one of the reasons why we like family constellations so much it is because it is an "alive" movie. I know it sounds simple but I only realized this when I was watching a movie. We see ourselves in it. It is a story we see the beginning the middle an the end. But contrary to the movie, it is a real story. With promising solutions!

I realize consciousness is more and more a ONE thing that involves even our body and mind if we allow it to come. It speaks to us if we let. Sometimes it can come "before" the constellation if we allow to. The other day a university called me to an organizational family with them. I had never done organizations before but I trusted God and Hellinger. Actually I invited you to be with me energetically. And when they were presenting the problem (12 of them) I "looked" at you and I saw you looking at the "university" itself as an entity. Since consciousness is ONE, you could be there as part of the consciousness and based on this something would be revealed. They spoke but nothing came out which was important. But when one of the people spoke and said they were all a family and united, my heart went pang! I immediately felt it was wrong. No, this is a lie. And I said to her I did not feel it right. Right away another older woman raised and said that for a long time she carried this in agony: 2 men founded the university but one was excluded. And the one who was excluded left in anger. Actually everyone who works for them and leaves, leaves in anger. I then did the constellation including this man who dedicated part of his life and was forgotten. It was moving and beautiful. Thank you Bert Hellinger.

I feel the soul consciousness- it can speak to us even before the constellation. And it speaks to us thru "sensations". A woman came to me and she felt guilty towards her mother death. I worked on her (my regular energy healing) but she still was sad. When she left I sat down and all of a sudden my mouth and face started to tremble. It was non-voluntary. My mouth went distorted and I felt like I wanted to say one thing but nothing came out. I felt despair. I felt alone and I was sorry my daughter was not with me. Daughter? Then I realized it was the old woman who died. I then said Hellingers words for this woman as daughter saying to mother "I am sorry I was not here with you" and so....so....and mother speaking to daughter. I felt relieved.

The next day client called me and said she felt wonderful. For the first time she could travel without thinking of her mother. And told me that her mother had died alone for she could not be there at the time of her death. *And, that her mother could not speak - she had a problem in breathing and speaking at the time of her death.*

So many things! I am not studying "sensations" which I believe we can be healed thru them. And family constellations have been the starting point.

I would be honored to know if I can continue to share . This is my second or third email to you. One was asking your permission to open an Institute in São Paulo and the other one was sharing also. I have not done it yet but I still want to do it. However, I would like to further my studies with you, if you are giving some intensive workshops? If you feel there is a need.

Sincerely yours and with Deep Respect,

Dear Bert Hellinger,

I wrote you a letter and 2 emails on my experiences with constellations and on my request to represent you in Brazil in 2003. Since then my email has changed from zmeredith@brturbo <<mailto:zmeredith@brturbo>> to zaquie@zaquie.com <<mailto:zaquie@zaquie.com>>

Many changes have occurred and please allow me to keep you informed of them and of my findings on constellations :

More and more I am conscious that constellations bring the energy which was "occupied" by an object, person or group. In my studies and experiences on individual healings, energy and emotions "do not age": they are timeless. That's why they come up "intact" from the moment they were experienced..or re-experienced...

Of course it is simple since Bert Hellinger brought it to light on a systemic vision but I can see this everyday on my healings.

I sometimes think of a "problem" and ask its conscience what it needs to be solved. By asking the question and "not knowing the answer" the correct answer comes immediately. Like a silly question I asked of a "bank account "I did not know what to do. When I closed my eyes and thought of the bank account as if it were a "living thing" and asked the question, immediately an "idea" popped into my mind which I had never thought about it as if the "bank account" itself were answering me... So simple!

Bert Hellinger, I send you this photo hoping that you would like to see it. We, Brazilians, are like that. We are all festivals being descendants of Portuguese, Africans and Indians. If you don't care, please discard it immediately. I am in orange. Thanks for being the honor member of that institution I asked you in Belo Horizonte which means a lot to me.

I tried a new way of doing constellations and it worked very well. Perhaps you may forward this e-mail to the ones you care to have this. I find it very important!

I asked 4 representatives (chosen at random) to leave the room before a woman spoke her problem so they would not hear her problem. When she ended speaking, I asked them to come back. Then she chose them to represent the situation. They knew nothing about it. The constellation was done in silence just like Hellinger's new way - and, one by one, every single detail was "related" by the representatives exactly on the same sequence as she had told us! Nothing was missed. They knew nothing and nothing was missed out of the story. And of course, they also "related" the solution! (not related by the woman...of course) We were dumbfounded!
Yours sincerely,

Zaquie Meredith

Dear Zaquie,
Thank you for your sharing

Dear Bert Hellinger,

Hello, this Zaquie Meredith, from Brazil, the one who asked you to be our honorable member for the work with prisoners. I have to qualify myself like this so you can remember me. So many people!

In one of my groups, I followed your exercise of experimenting "perception being more than receiving" and put a woman in center while we gave her unconditional love. The next day this made me visualize my mother, her mother and her grandmother. (mother lives away)

I then understood that this can not be done as if the baby were "awaiting" love from mother. It has to be done on a entire giving of yourself not knowing what will happen, not expecting anything, not wishing anything. It is almost like death. You go. When you do this, only when you do this, when you let go of any expectations, only then you can feel the love from them, or from life, universe, I don't know.

It is so subtle the difference that I felt an impulse to share with you. Every time new findings, new things.

And every time I start a group on family constellations I speak of you to the group, tell your story from the books, from my personal experience with you in Mexico and Brasil and intimately ask you to be present with us. This gives an entire different tune to our work. Believe me.

We Brazilians are still starting our work here, the majority who teaches are germans, to which we thank, but I feel it is time for us to take off too. My strength comes from the feeling that you are with us and that you incentiva our work too, believing in our capacity as well.

My love and deep respect ,

Zaquie Meredith
